C. L. Voorhes and Nicholas Van Zandt will open a new meat market on Glenwood avenue, next door to Johnson's paint store.

The Twenty-sixth Reg't New Jersey Volunteer Veteran Association will hold a meeting at A. H. Van Horn's, 73 Market street, Newark, N. J., on the 18th inst. at 8 P. M., to make arrangements for the annual reunion to be held February 22d, 1888.

A fair by the members of the Bloomfield Public School, for the purpose of securing funds for general uses in advancing school work will be held at the High School Building on the evening of February 22. Contributions of aprons or fancy articles for sale from friends of the school will be received with thanks.

The Woman's Auxiliary of the Y. M. C. A. met at the Association Rooms on Monday afternoon, to re-organize the board of managers and elect officers. Owing to the absence of representatives of the Park M. E. and German Presbyterian Churches, the meeting was adjourned until Saturday the 14th.

The following gentlemen were installed as officers of Olive Branch Lodge, I. O. O. F., on Monday evening: Noble grand, Wm. H. Cook; vice grand, Henry S. Raasbach; treasurer, Chas. Lockwood; financial secretary, Eugene Yearance; recording secretary, Wm. Hoffman; right supporter, Fred. Berstetcher; left supporter, Wm. McLean. A number of officers remain to be filled by appointment.

The 12th Legislature opens its session at Trenton on Tuesday. The preliminary work of choosing of presiding officers, filling the various clerkships and arranging committees, passed off harmoniously. The representative from the first district, Mr. Thomas McGowan, was made chairman of the committee on printing, and assigned a place in the stationery and engrossed bills committees.

Bloomfield Council O. A. F. elected the following officers on Wednesday evening: President, J. Howard Hardcastle; Vice-President, Theo. Cadmus; Sec'y, Max Koehler; Treasurer, George M. Wood; Sergeant at Arms, John T. Griffith; Trustees for one year term, Wm. Rawson Wm. Hoffman; two years term, Howard Davis, Victor Corraze; three years term, Charles A. Brady.

The lovers of horsemanship in Soho were somewhat excited over the sale of the bay gelding Frank H. by Mr. Frank Donnelly, better known in turf circles as "Daddy Baker," to Dr. H. Wellman. "Daddy Baker" is understood to be negotiating for the purchase of Mr. Patrick Daly's gray trotting horse for New York parties. Mr. John Donohue's family is frequently seen behind the big bay which he recently purchased from "Daddy Baker."—Sunday Call.

Paper mill rolls, which at one time were sent to England to receive the necessary coating of rubber which adds greatly to their utility, are now frequently sent to the rubber mills of the Combination Roll and Rubber Company at Bloomfield. A large iron roll ten feet long and 16 inches in diameter was recently received at the mill, from a paper mill in Wilmington, Delaware, to be covered. Rolls from various parts of the United States are sent here.

Mr. Samuel Baxter, clerk of the health board, visited Montclair Gas and Water Company's Works on Friday, to investigate the nuisance complained of to the health board in regard to the works. Mr. Baxter found everything in perfect order and saw nothing which could be found fault with. The officials in charge of the works said that when they dumped their purifying boxes it created quite an odor, but that only happened once in a great while.

The lovers of the national game who are numerous in our town, manifested a deep interest in the fortunes of the Montclair and Rosville base ball clubs last season, which was owing to the fact that representative players in both clubs were Bloomfield men. The question has arisen if we can furnish material to make up outside clubs, why can't we keep it at home, and make up a first class home club? Several gentlemen have expressed a desire to have this matter brought forward, and now is a proper time to take it up.

The new 150 horse-power Corliss Engine put into Benson's Rolling Mill is a model of its kind and works like a charm. It is an interesting sight to note the seemingly graceful ease with which it turns the ponderous system of gearing attached to the heavy rolls that have recently been added to the plant. A 5 inch steam pipe leading from a new 110 horse-power boiler supplies the voracious monster with the sheaves of strength. The work performed by it is the conversion of copper, silver and brass from the heavy ingots into plates of various thicknesses. Brass plate metal of one-thousandth of an inch in thickness is sometimes turned out from the rolls.

The suit of Ledyard S. Haskell against Justice Wm. Hall and Constables James Foster and John V. Smith, in which the plaintiff sued to recover \$4,000 damages, came up before Judge Dupue in the Circuit Court on Monday. Lawyers Barrett and Bailey represented the plaintiff, and Dr. Harry E. Richards the defendants. Judge Dupue said that while it was the duty of the courts to uphold magistrates, in this case he could not see that the justice had acted right in not taking action on complaint of the constables instead of simply collecting the money to pay the constables for making the arrest. Judgment to the amount of \$25 was rendered in favor of the plaintiff.

Those who fail to hear the concert of the Glee and Banjo Club, on the 20th (next Friday), will miss a very pleasant evening. They gave an entertainment in Newark on Wednesday evening, under the auspices of the Lanthe Canoe Club. They received enormous applause from the appreciative audience which filled the hall and rendered their glees and warbles easily and gracefully, responding cheerfully to the frequent encores. As the wheelman have promised as a comfortable hall, we shall be happy to see the Club here, and hope they will have a crowded house.

There was a large attendance at the annual meeting of the Bloomfield Building and Loan Association last Monday evening in the Post Office building. The business transacted was the amendment of the constitution in some respects, and the election of officers and directors to take the places of those whose terms were about expiring. John G. Kaylor was re-elected President, and Morris Van Vleet Vice-President. Messrs. J. M. Unsworth, Henry Cueman and S. Morris Hullin were re-elected Directors. Messrs. D. G. Garabrant, T. A. Benedict and Chas. Teal were elected Auditors. About two hundred shares were taken in a third series of stock.

A remarkable series of coincidences happened in connection with the death of the late Wm. R. Peters and Mrs. Lydia Andrus. While Mr. and Mrs. Malcolm Peters, the respective son-in-law and daughter of the late Colonel J. M. Andrus were dwelling at a town along the Hudson River, the Colonel paid them a visit, was taken sick and died there. While he was engaged in the funeral arrangements, Mr. Peters received a telegram from Bloomfield informing him of the death of his mother, Mrs. Andrus at the time she was taken ill was visiting her daughter Mrs. Peters, at Philadelphia. Mr. and Mrs. Peters came to Bloomfield to attend the funeral of the former's father, and while here they received a telegram informing them of the death of the latter's mother.

The young people of the First Presbyterian Church were entertained last Monday night with a lecture by Dr. Harry E. Richards, which took the place of their usual social. It was a geological lecture and Dr. Richards handled his subject in a way that proved to be interesting as well as instructive to his listeners. He began with the time in the earth's history when the land began to appear above water, and dealt with the successive periods and formations from that time to the present. He described the life, animals and vegetable, which was found in the different strata. His remarks were accompanied by stereopticon views of animals and plants belonging to different periods, and specimens which made the lecture doubly interesting and instructive to those who love "Mother Earth."

Watessing.

Rev. J. H. Egbert occupied the pulpit of the Second Methodist Church of Rahway, last Sunday.

Rev. W. H. Root of Rahway created a very favorable impression upon his hearers at the Watessing M. E. Church, last Sunday.

The regular quarterly meeting of the teachers and officers of the Watessing M. E. Sunday School will be held on Wednesday evening, the 18th inst. Arrangements are being made to have a good social time together, as this is the last quarterly meeting that the present pastor will be present with them.

Mr. Francis Law and Mr. Wm. Bowker were absent from their customary places in the Lawrence Street Church last Sunday. Rumor has it that their absence was in connection with the future interests of the church.

The members of the Myrtle Association ought to purchase a row-boat and practice in their rooms on wet days.

Mr. Fred. Mohrman, the popular reader visited his Watessing friends on Sunday evening.

Henry Gallien, the new member of the Prospect Hose Company, gave his companions a lesson in early rising last Monday morning.

One night lately a well-known resident of Watessing while groping his way along Rahway avenue with a baby in his arms, stubbed over one of the new hydrants and had himself and baby precipitated in the mud. If Alderman Wilson don't have gas put in on that street, he may look out.

The board of directors of the Watessing Public Library met on Wednesday night. It was decided to appropriate a part of the treasury surplus to the purchase of new books. A committee was appointed to make arrangements for holding a bazaar. A large picture in a handsome frame entitled "Nelson's Farewell" has been presented to the Library and will soon be put up in the rooms. Contributions have been received from John W. Hobart and the singing society of St. Paul's Church.

Joseph Butterworth and Joseph Lee while walking along the New York and Greenwood Lake Railway track on their way to Orange Wednesday evening, passed Policeman James W. Eddy, who was on his way towards North Park street. They exchanged a few words with him and had proceeded about fifty yards in their journey when they were compelled to step out of the way of an approaching locomotive. They looked back in time to see the engine strike the officer and hurl him against the track in a mangled condition,

death being instantaneous. Officer Eddy was 32 years old and leaves a large family.

The regular meeting of Prospect Hose Company, No. 4, was held on Monday evening. Perry McCallum and John Whitman were received as honorary members. Harry Gallien was elected an active member. After adjournment the members proceeded to the rooms of Ashland Hose Company, on Main street, where a committee consisting of Joseph Lee, Dr. A. H. Van Riper, William Ordwell, James Smith, and Joseph Eddy on behalf of the members of Prospect Company presented Ashland Company with a handsome silver fireman's trumpet. The customary festivities followed the presentation.

During the year 1887 there were manufactured at Danbury, Conn. 449,155 dozen hats, a daily production of 17,220 single hats.

A New Church Project.

In response to a call issued over the signatures of about forty residents in the vicinity of Glen Ridge, to consider the question whether it is desirable to establish a Union Church in that part of town, a meeting was held Thursday evening at the Glen Ridge Depot. There were present about seventy people, representative of some thirty families. After the meeting had been called to order and the object stated, Mr. Robert S. Rudd was called to act as Chairman and Mr. Edwin A. Raynor, Secretary. Addresses were made by the chairman, also by Messrs. Arthur J. Lockwood, J. D. Gallagher, Theodore M. Nevius, E. A. Raynor, Dr. Geo. C. Seibert, Ed. P. Mitchell, Jos. Williams and Jno. K. Williams. The temper of the addresses and the spirit of the meeting was manifestly to make haste slowly, and not to do anything in an inconsiderate manner, the importance of the action being duly appreciated. After a pretty full expression of opinion, a committee was appointed to consider the feasibility of establishing a church organization, with instructions to arrange for immediate evening services of prayer.

The corner of Bloomfield and Ridge-wood avenues was suggested as a site for the proposed new edifice.

The assemblage were informed that the D. L. & W. R. R. Company had offered the use of the depot as a place where they might hold services every Sunday until they had permanent quarters of their own.

The following gentlemen were appointed a committee to attend to the preliminaries connected with the perfecting of the organization: Messrs. Robert S. Rudd A. G. Darwin, John W. Stewart, Arthur J. Lockwood, Wm. I. Spencer, Theodore M. Nevius, M. G. Belloni, Chas. D. Breeden, Edwin A. Raynor, H. K. Benson, Joseph D. Gallagher, Edward P. Mitchell, Wm. Thompson, A. C. Bond and Dr. George C. Seibert.

R. A. Installation.

The members of Bloomfield Council 909 Royal Arcanum, accompanied by members of their families and friends, assembled in the Council Hall on Glenwood avenue last Thursday evening.

The installation of the newly elected officers of the council was witnessed by the visitors. An interesting programme consisting of instrumental and vocal music, recitations and speeches, served to make the evening an enjoyable one. A excellent luncheon was provided by the members of the council to which everyone present did ample justice. The following ladies and gentlemen contributed to the evening's entertainment: Quartette, Miss Earl, Miss Pierson, Mr. Schooler and Mr. Davis; solos, Mrs. J. P. Hague; recitations, Dr. W. H. Van Gieson; Zither, Mr. Ziplin; speeches, Mr. Frank J. Griffith, Mr. Wm. McCabe and Mr. Charles D. Baker, the editor of "The Candidate," the official paper of the Council. Mr. Baker's speech was exceedingly humorous, creating considerable laughter. Deputy Grand Regent, Frank J. Griffith, and Grand Guide, William McCabe, performed the installation ceremonies. The following is a list of the officers installed: Past Regent, Charles E. McDowell; Regent, Seymour Gilbert; Vice-Regent, Frank G. Tower; Orator, Joseph Saxton; Secretary, Henry Raasbach; Treasurer, Joseph P. Hague; Recorder, James M. Cooper; Chaplain, John Oakes; Guide, Wright L. Gilbert; Warden, Wilbur E. Veland; Sentry, A. R. Pierson.

Bloomfield Council now numbers thirty members, and may be said to be thoroughly representative in character. Life insurance being the prominent feature of the order, extreme carefulness is exercised in the admission of new members.

Amusement Notes.

At the Lyceum Theatre, New York, Manager Frohman is still presenting the admirable society-comedy of "The Wife," The Moral and Express of New York says: "It is the best new play produced in New York this season and the best American play ever presented. Manager Frohman regards it as the best dramatic effort of his life."
